2022 

In 2015, our board assembled for the first time to dream about the future of Nadege...

We discussed logistics. Do we rent a space, or do we build?
We mulled over fundraising initiatives. Do we plan events, or apply for grants? We envisioned our first graduates. What would their hopes and dreams be for their future?

In 2022, these questions among others have been answered.
We built a space through multiple fundraising initiatives and no longer had to envision our first graduates.

We celebrated with them instead, and we continue to walk alongside them as they transition into independent living.

Today, we celebrate YOU. Thank you for continuing to restore hope for Nadege's residents and graduates.

Gratefully,
Emily Hays

NADEGE 2022

MISSION | OVERVIEW | TESTIMONY

MISSION

Restoring hope to survivors of sexual violence in Haiti.

OVERVIEW

2022 was a milestone year for Nadege, as we watched our first group of graduates successfully transition back into the community and continued to serve residents living at the safe house.

TESTIMONY

"The clinical staff team helped me to improve my behaviors, especially emotional regulation, for harmonizing my interpersonal relationships, especially the control of emotions. In addition, I never thought that I could learn sewing given my level of education. I never believed that a professional school would accept me. The dedication of the clinical team and their various advice allowed me to practice sewing with such motivation. All the people within Nadege have contributed greatly, each in their own way, to making me proud to be a mother, given their support and their gestures of affection towards my children."
